Projects

1. Gully Cricket App

The Gully Cricket App Project is a C++ program that simulates a mini cricket game. It features two teams, each with four players. In each inning, one batsman from the batting team faces six deliveries bowled by a randomly selected bowler from the opposing team. The app calculates runs scored (ranging from 0 to 6) without any wicket criteria. After both teams complete their innings, the winner is determined based on the total runs scored or if there's a tie .
